AION 2

Farming & Power Guide

Elyos & Asmodian · solo & multi-character · Global · October 2026 · PvE

ELYOS ASMODIAN

KINA | ITEM LEVEL | COMBAT POWER | ABYSS POINTS

The 7 rules that matter most

#	Rule	Why	Feeds
1	Never let Odyle Energy cap	Your biggest Kina source – it only banks 4 days 16 h.	KINA
2	5 Duty Missions every day on your main	Server-wide limit: Kina, stones, Odyle, keys.	KINA · iLv
3	Clear every weekly counter before Wednesday	Unused tries, entries and tickets are lost.	KINA · iLv · AP
4	Safe +10 on all Epic/Unique gear first	Always succeeds up to +10 – risk-free power.	iLv · CP
5	Upgrade your weakest slot, not your best	Item level drives Combat Power (≈45 CP per point).	iLv · CP
6	Farm uncapped AP first	Quests and Supply Requests before capped Abyss mobs.	AP
7	Alts: same server + faction – 4 free, 8 with Membership	Members get 2 cubes per 80-Odyle run and count half the runs.	KINA

Your weekly targets

21	1,400	100K	200K+
Odyle cubes per character	item level for Tier 2	Combat Power goal	AP per character

The four pillars of progress

Everything in AION 2 progression comes down to four numbers. This guide is built around pushing all four as fast as possible – every task in it is tagged with the pillar it feeds.

Pillar	What it is	Main sources	Goal with this guide
KINA	Tradeable currency – buys gear, upgrades and Market items	Odyle cubes, Duties, Market	≈5.6M/week solo · ≈22–45M with alts
iLv	Character total of gear, enhancement and Arcana	Gear swaps, safe +10, Arcana	700 → 1,000 → 1,400 → 2,100
CP	The game's strength score – rises ≈45 per item level point	Item level, Daevanion, titles, wings	≈50K → ≈100K
AP	Abyss currency – Stigma Shards, Daevanion Crystals, Potential Stones	Supply Requests, Corridor, Abyss mobs	≈110–380K/week per character

Inside this guide

Part	What you get
Ceiling · Payoff · Time	The weekly maximum, what the guide earns, Kina per hour
Routes · Week plan · Checklists	Optimized daily and key-day routes, calendar, checklists
Pillar I – Kina	Server limit, cube tiers, energy timing, solo, alts, all 8 characters
Pillar II – Item level	Milestone roadmap and the order to spend your Kina
Pillar III – Combat Power	Upgrade path, benchmarks, what strong characters have
Pillar IV – Abyss Points	Sources, caps and the AP priority order
Factions · Mistakes · Tracker	Elyos vs Asmodian, common mistakes, printable weekly tracker

The ceiling – the maximum per week

This guide aims at the **maximum**, not just 'better'. These are the highest values the systems allow per week – and what it takes to reach them.

61.6M	2,100+	110K+	≈580K
Kina / week – 8 chars, Tier 3, Member	item level – Tier 3, then Amplified	Combat Power – top tier	AP / week per character

Kina ceiling per week

8 characters need Membership to stay at full Kina

Pillar	Guide level	Ceiling	What it takes
KINA	≈22.4M (4 chars, Tier 2)	≈61.6M (8 chars, Tier 3)	Membership · slots 5–8 · every character at 2,100
AP	≈110–380K per char	≈580K per char	Both capped pools full (≈200K mobs + ≈200K PvP) + all uncapped AP
iLv	1,400 (Tier 2)	2,100+ (Tier 3)	Unique gear at +10, full Arcana, then +15 and Amplified
CP	≈66K	110K+	≈255+ Daevanion nodes, ≈190 titles, Amplified Enhancement

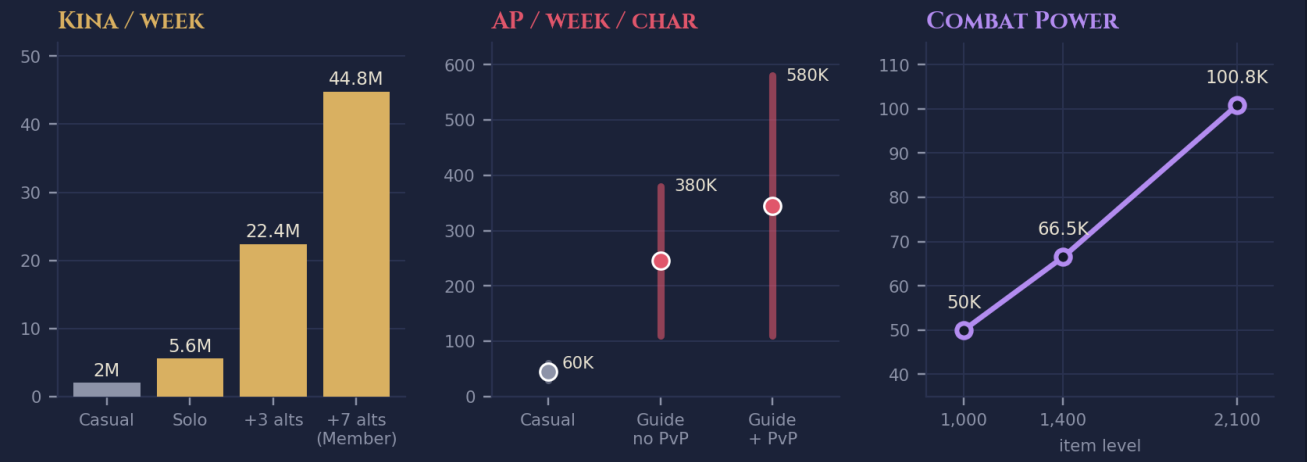

The 10 laws of max progress

#	Law	#	Law
1	**Zero waste:** Odyle, Abyss time, weekly counters	6	**Cap the capped** AP pools every week
2	**Highest tier** you can clear, always	7	**Sell surplus** Odyle and materials on the Market
3	**Double-claim** with Membership (80 Odyle = 2 cubes)	8	**Kina → item level**: weakest slot → +10 → Arcana
4	**Full roster** on one server and faction	9	**AP → Combat Power**: Stigma Shards, Daevanion
5	**Uncapped AP first**: quests, Supply Requests	10	**Batch sessions**: 2 Odyle days, 3 Abyss blocks

The payoff – what this guide earns you

Compared with a typical casual week. All values are estimates for planning – the direction never changes.

×2.8	×11	+50K	×3–6
Kina – solo	Kina – main + 3 alts	Combat Power, iLv 1,000 → 2,100	Abyss Points per character

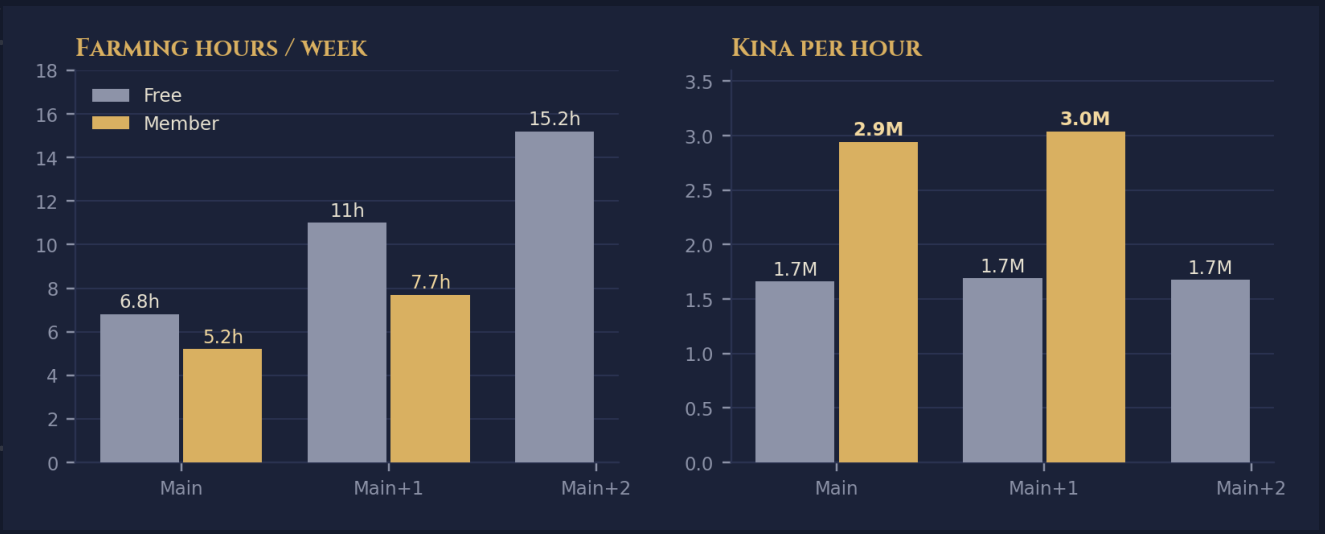

Pillar	Casual week	Following this guide	Why
KINA	≈2.0M (Tier 1, half the Odyle wasted)	≈5.6M solo · ≈22.4M with 3 alts · ≈44.8M with 7 (Member)	No wasted energy, Tier 2 cubes, alts on the same server
iLv	slow, random upgrades	milestones 1,000 → 1,400 → 2,100	Kina spent in the right order
CP	≈50K at iLv 1,000	≈66K at 1,400 · ≈100K at 2,100	≈45 CP per item level point
AP	≈30–60K	≈110–380K without PvP · up to ≈580K with PvP	Uncapped sources first, Corridor bursts

How to read these numbers

Cube values, caps and the CP-per-item-level ratio can change with patches. Global AP caps are not published – check the live counter in the Abyss UI. The casual baseline is an assumption for comparison.

Time budget – where Membership pays

Measured farming time per week for the full Kina routine (all sources). Free alts add Kina but not speed – **Membership almost doubles Kina per hour.**

1.7M	≈3.0M	−24%	−30%
Kina / hour – free	Kina / hour – Member	time for main only	time for main + 1 alt

Pick your setup by available time

Time per week	Setup	Expected Kina / week	Note
≈5 h	Main only + Membership	≈15M (all sources)	Highest value per hour
≈8 h	Main + 1 alt + Membership	≈23M	Best start for most players
≈12–14 h	Main + 3 alts + Membership	≈30M+	Free players stop here anyway
20 h+	All 8 characters + Membership	≈45–60M from cubes	The ceiling – only with Membership

Setups above main + 1 alt are extrapolated from the measured values.

Optimized routes · every day

Follow the stations top to bottom. The order is chosen so that things that cap or expire come first and nothing is done twice. Times are guide estimates.

Daily route · main

≈45 min

1. **Attendance + Shugo keys** — 2 min
   claim first – they cap
2. **Duty Missions ×5** — 15 min
   reroll weak rewards
3. **Dimensional Invasion** — 5 min
   both daily rewards
4. **Daily Dungeon ×2** — 10 min
   Enhance Stones
5. **Nightmare ×2** — 10 min
   or bank up to 14
6. **Supply Requests** — 3 min
   uncapped AP

Daily route · each alt

≈15 min

1. **Nightmare ×2** — 10 min
   or bank and batch
2. **Supply Requests** — 3 min
   own AP for own Stigmas
3. **Odyle check** — 1 min
   only empty on session days

- **Claim capping things first** (Shugo keys, Attendance) – they cost nothing and are lost at cap.
- **Duties before dungeons:** Duty rewards include Odyle and keys that the rest of the route uses.
- **Alts stay short:** only per-character content; Odyle waits for the session days.
- **Busy day?** Stations 1, 2 and 6 on the main are the minimum – Nightmare and Daily Dungeon bank.

Optimized routes · key days

Wednesday · reset day

≈1.5 h

1. **Buy Command Scrolls ×12** — 5 min
   do not roll over
2. **Morph + subscriber Odyle** — 5 min
   main 20 · alts 4
3. **Wind Breeze Merchant** — 2 min
   check weekly stock
4. **Ascension Trial ×3** — 30 min
   every character
5. **Daily route** — 45 min
   as every day

Saturday · power

main event

1. **Main: Odyle cubes** — ≈1.5 h
   highest tier · ≈480 Odyle
2. **Alts 1–3 (or 1–7)** — ≈1.5 h each
   one by one · empty Odyle
3. **Send Kina to main** — 2 min
   Server Storage
4. **Spend Kina** — 15 min
   weakest slot → +10 → Arcana
5. **Abyss block** — ≈2 h
   Corridor + mobs

- **Wednesday:** buy everything with a weekly purchase limit right after reset – it never rolls over.
- **Ascension early in the week** – entries do not bank, and a forgotten Trial is gone.
- **Saturday:** empty Odyle on every character at ≈480, then turn the Kina into item level the same evening.
- **Spend while you are strong:** upgrade first, then go into the Abyss block with the new gear.

Optimized routes · clean-up & Abyss

Tuesday · clean-up

before reset

1. **Odyle session 2** — ≈1 h each
   all characters · 360 Odyle
2. **Daily Dungeon leftovers** — varies
   14 per week
3. **Ascension · Subjugation** — varies
   anything left
4. **Exploration + Corridors** — 10 min
   claim the cubes
5. **Abyss time leftover** — varies
   7 h per layer
6. **Daeva Pass + Season** — 15 min
   top up weekly EXP

Abyss session · AP

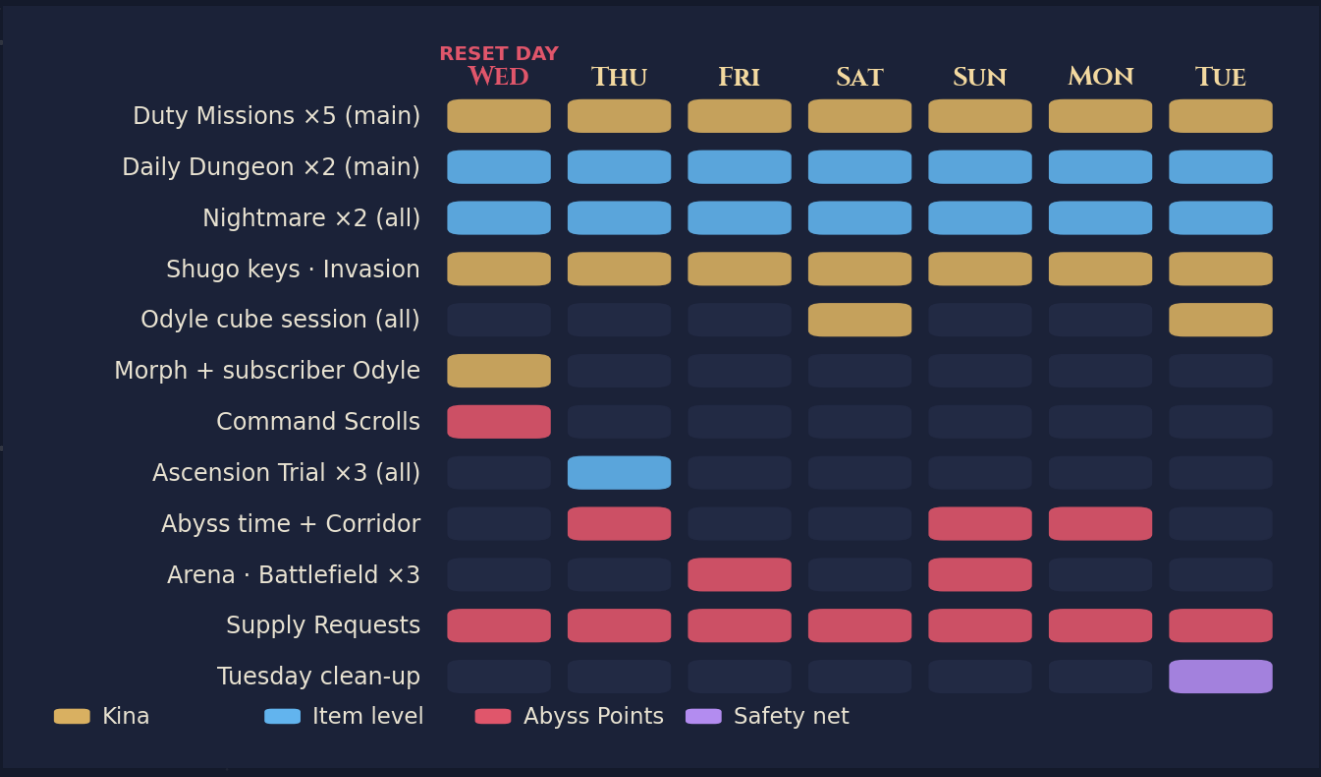

≈2.5 h · 3× week

1. **Quest AP first** — 20 min
   Command Scrolls · Season tab
2. **Supply deliveries** — 5 min
   uncapped AP
3. **Abyss Corridor** — 5 min
   if your faction holds it
4. **Abyss mobs** — 60–90 min
   purple-marked first · to cap
5. **Spacetime Rift** — 20 min
   when a portal opens
6. **Spend AP** — 5 min
   Stigma Shards · Daevanion

- **Tuesday clean-up** is the safety net: second Odyle session plus every weekly leftover.
- **Abyss: uncapped before capped.** Quest AP and deliveries first, then Corridor bursts, then mobs to the cap.
- **Three Abyss blocks** (e.g. Thursday, Sunday, Monday) split the 7 h per layer without ever leaving time unused.
- **Spend AP right away** on Stigma Shards and Daevanion Crystals – AP sitting in the wallet adds no power.

The weekly master plan

One week from reset to reset. Colored = do it that day. Two Odyle sessions (Saturday, Tuesday) collect all 21 cubes without ever touching the cap; Tuesday is the safety net for everything weekly.

2	21	7 h	Tue
Odyle sessions per week	cubes per character	Abyss time per layer	clean-up before reset

Short on time? The 15-minute day
Duty Missions on the main → claim Shugo keys → Supply Requests. Nightmare and Daily Dungeon bank, so they can be caught up later in the week. Odyle only on Saturday and Tuesday.

Daily checklist

Sorted by progress. **Main** = main only (server-wide limit). **All** = every character.

	Task	Who	Feeds	Notes
☐	**Spend Odyle Energy on cubes** MUST	All	KINA	+15 every 3 h = 120/day, cap 560. 40 per cube (Member: 80 = 2 cubes). Spend every ≤4 days.
☐	**Duty Missions ×5** MUST	Main	KINA · iLv	Shared per server – on alts they are wasted.
☐	**Daily Dungeon ×2** MUST	Main	iLv	Weekly pool of 14 per server. Main reward: Enhance Stones.
☐	**Nightmare ×2** MUST	All 45+	iLv · CP	Phantasmal Fragments + shop. Banks up to 14.
☐	**Supply Requests (emergency)** HIGH	All	AP · iLv	Uncapped AP + Enhance Stones.
☐	**Shugo Festival keys** HIGH	Server	KINA	+3/day, cap 12 (21 with Membership).
☐	**Dimensional Invasion** HIGH	Main	KINA · iLv	Rewards 2× per day.
☐	**Attendance rewards** QUICK	Account	KINA	Log in and claim.
☐	**Spacetime Rifts** OPTIONAL	Any	AP	Portals every 3 h – AP even after your weekly cap.

Main vs alts

Duties, Daily Dungeon and Shugo keys are shared per server – always on the main. Odyle, Nightmare and Supply Requests count per character – do them on every character.

Weekly checklist (before Wednesday reset)

Weekly counters cap at their refill amount – anything unused at reset is gone. Check the exact reset time in-game.

	Task	Who	Feeds	Notes
☐	**Ascension Trial ×3** MUST	All	iLv · CP	Solo, three rooms + boss. Difficulty by item level.
☐	**Sanctuary raid attempts** MUST	All eligible	iLv · CP	Do not let attempts expire.
☐	**Substance Morph + Subscriber Odyle** MUST	All	KINA	Main 20 each, alts 4 each = extra cubes.
☐	**Abyss time + Corridor** MUST	Main (+alts 1,000+)	AP	Up to 7 h per layer. Corridor: 10–30K AP in 5 min.
☐	**Command Scrolls (capital + Abyss)** HIGH	Main	AP · iLv	12 capital per week – quest AP and materials.
☐	**Battlefield ×3 wins** HIGH	All	AP	Counted per character.
☐	**Subjugation tickets ×3** HIGH	Main	iLv	Expire at reset.
☐	**Abyss Corridors · Exploration** HIGH	All	AP · iLv	Free rewards – claim them.
☐	**Daeva Pass + Season Missions** MEDIUM	Main	KINA · AP	Weekly EXP cap; Abyss tab gives AP.
☐	**Weekly / Season Supply Requests** LOW	All	AP	30–50K AP per week.
☐	**Arena rewards · Wind Breeze Merchant** LOW	Main	AP · KINA	When there is time.
☐	**Buy PvE / PvP weekly quests** LOW	Main	AP · iLv	Can be stored for later.

Tuesday clean-up

Burn the rest: Daily Dungeon entries, Ascension Trials, Subjugation, Exploration, Abyss time, Daeva Pass – and run your second Odyle session. This habit alone is worth more than most tips.

1

Kina

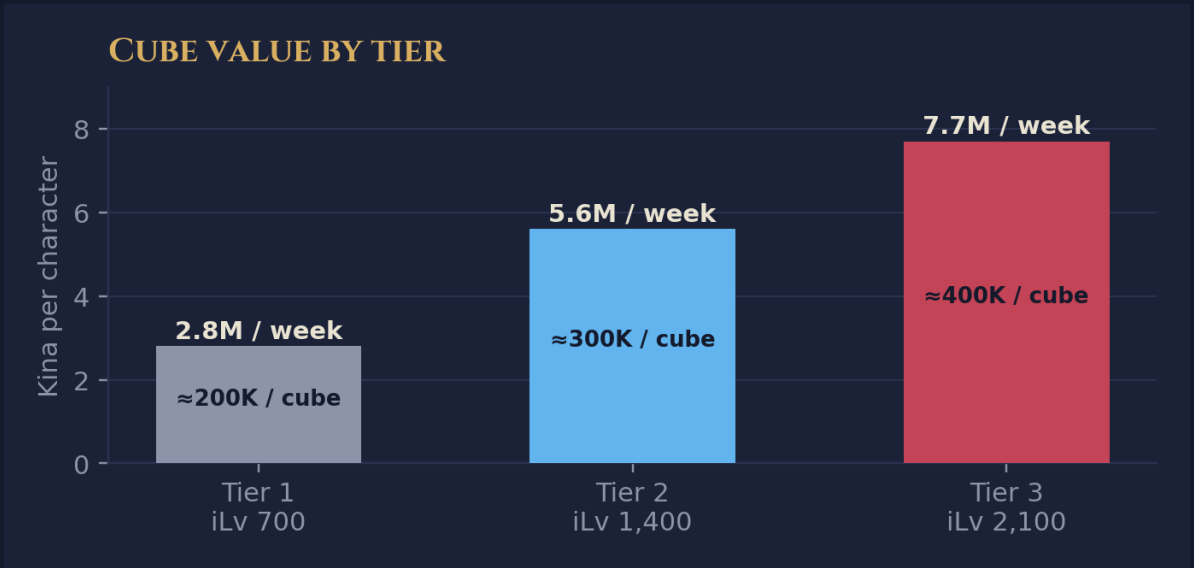

The engine – every other pillar is bought with it

CEILING ≈61.6M / WEEK

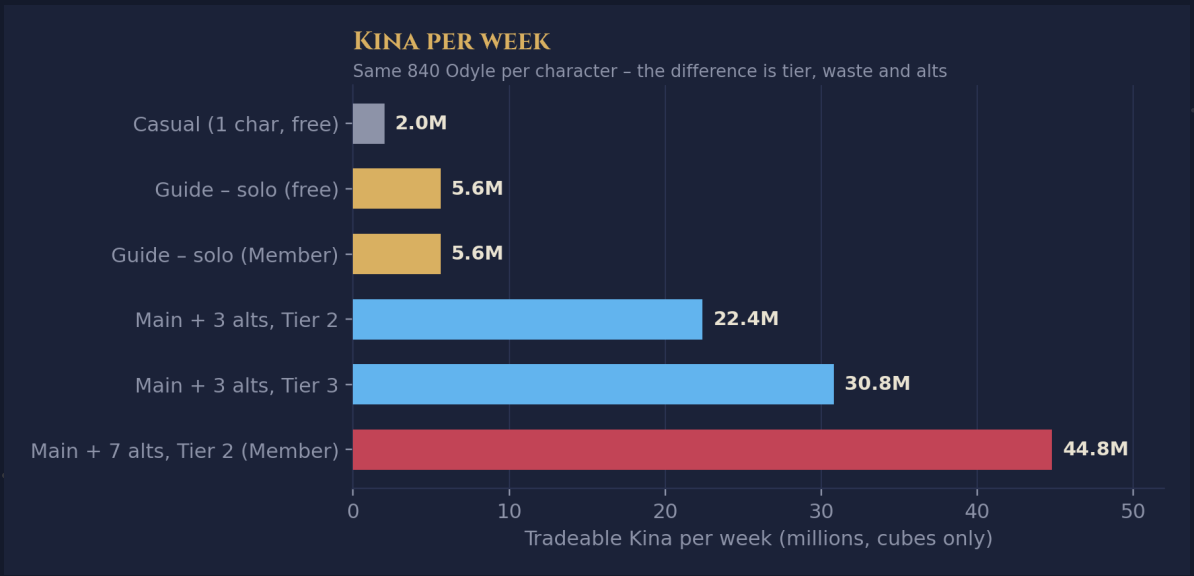

Most Kina comes from **Odyle Energy cubes** in Conquest and Transcendence. Every character regenerates 840 Odyle per week = 21 cubes. The server tracks the runs of **all your characters together**:

Content	Full Kina up to	After that
Conquest	84 runs per week per server	80% → 60% → 40% → 20%
Transcendence	55 runs per week per server	80% → 60% → 40% → 20%

Membership trick
Members spend 80 Odyle per run and get 2 cubes from one clear. Same Kina per Odyle – but half the runs, half the time, and the server counts runs, not cubes.

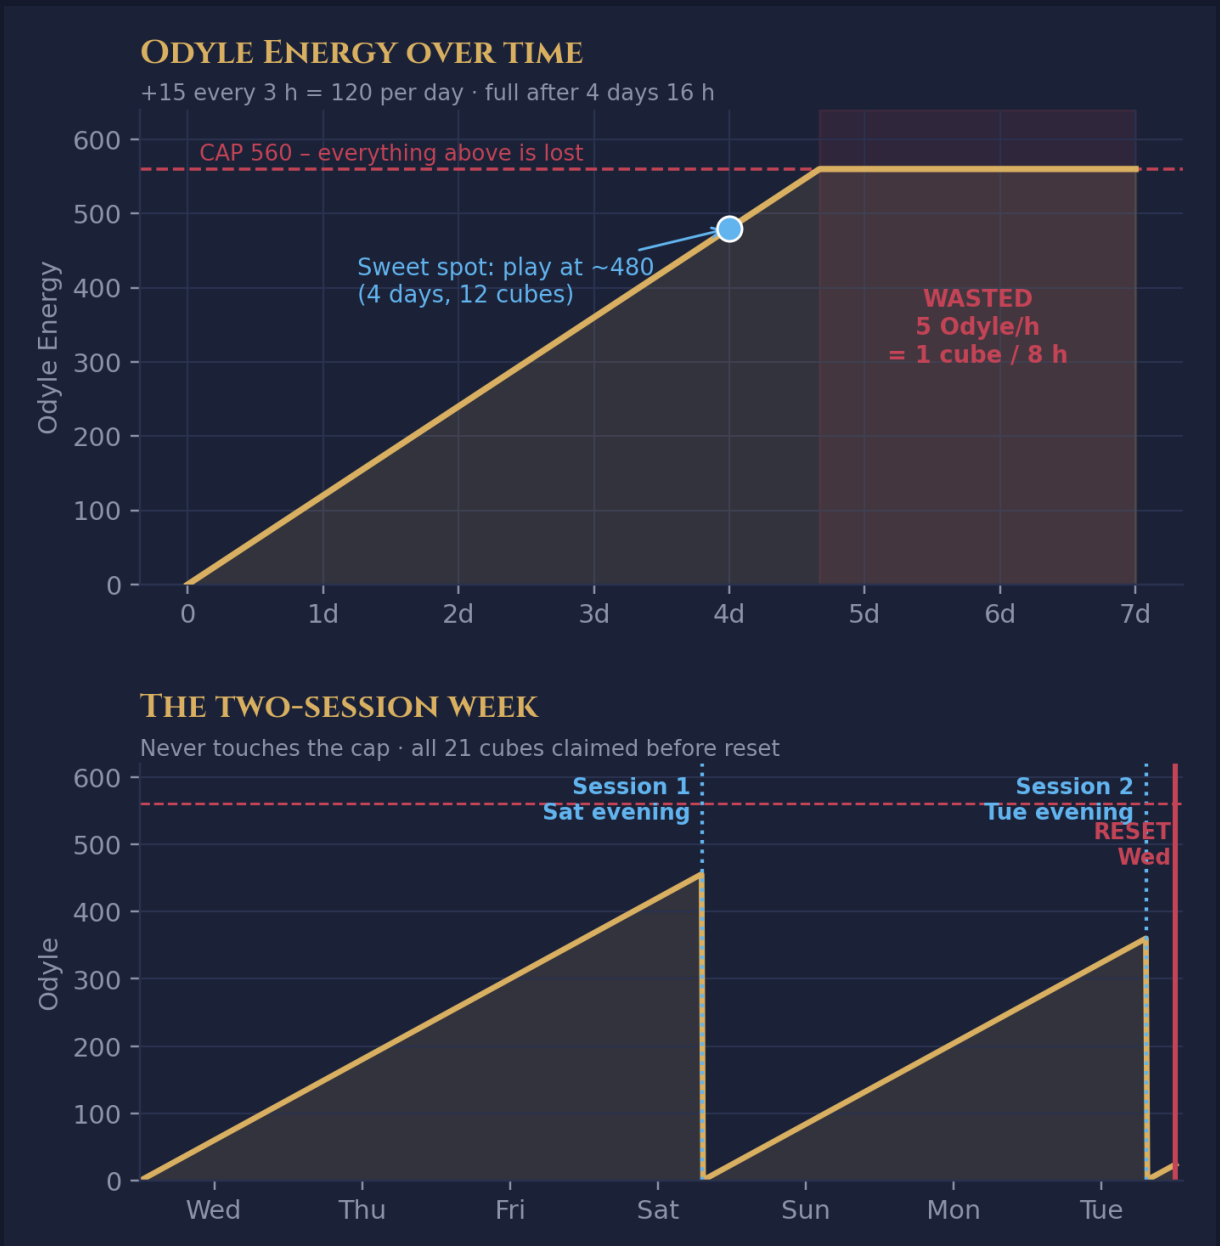

Tier 1: Krao Cave, Draupnir · Tier 2: Urugugu Canyon, Vakron Sky Island · Tier 3: Fire Temple, Ferocious Horn Den

Kina · when to spend Odyle

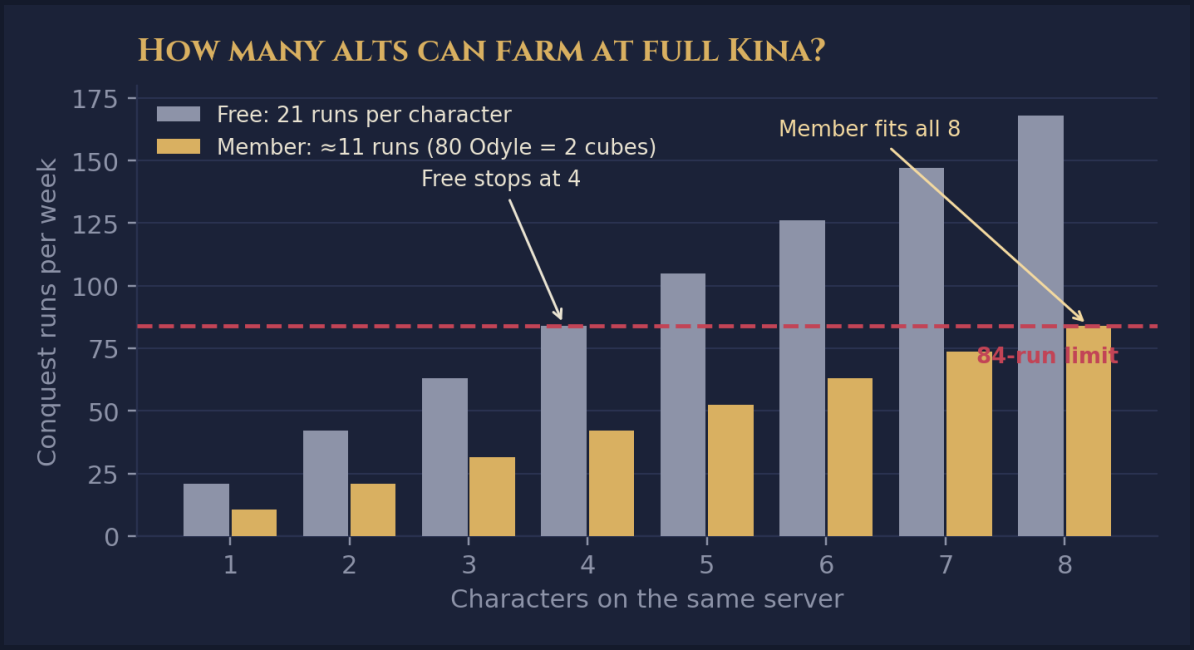

Bank it, but never let it cap. Kina per cube is the same today or in three days, and cube claims bank for a week. Only energy above 560 is lost: **5 Odyle per hour = one cube every 8 hours.**

- **Two sessions per week**, e.g. Saturday + Tuesday evening: 480 + 360 = 840 Odyle = all 21 cubes.
- **Play at about 480**, not at 560 – one late login and you waste energy.
- **Bank before an upgrade:** about to hit item level 1,400? Save Odyle for Tier 2 cubes (+50% per cube).

Kina · solo or with alts

	Solo (1 character)	With alts (same server + faction)
Kina / week	≈5.6M from cubes (≈11M free / ≈15M Member incl. other sources)	+2.8M (Tier 1) to +7.7M (Tier 3) per alt
Key move	Reach item level 1,400 – Tier 2 is worth 1.5× Tier 1	Push one alt at a time to 700, then 1,400
Odyle extras	20 Morphs + 20 subscriber purchases	4 + 4 per alt
Kina flow	Sell gathered Odyle and materials on the Market	Send tradeable Kina to the main via Server Storage
Membership	Market + Exchange access, 2 cubes per run	Covers every character on the server

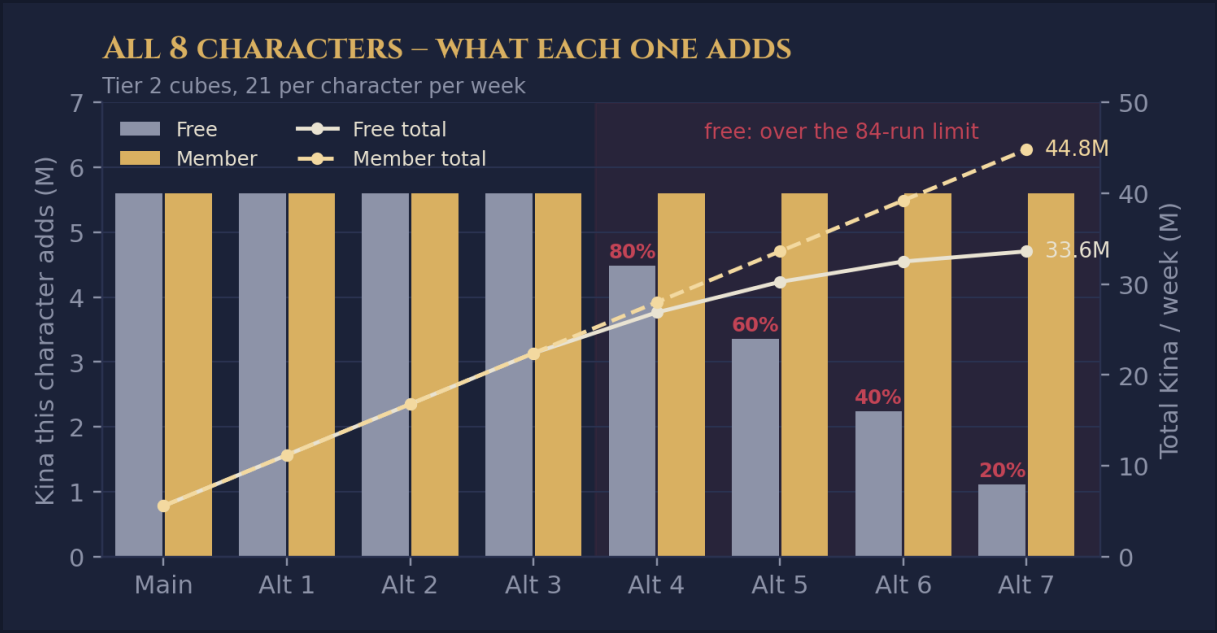

What alts do – and what they skip

Do on every alt	Main only (shared per server)
Odyle cubes · 4 Morphs + 4 subscriber Odyle	Duty Missions ×5 per day
Nightmare ×2 per day · Supply Requests	Daily Dungeon (14 per week)
Ascension Trial ×3 · Battlefield ×3	Capital Command Scrolls · Subjugation
Abyss Corridors · own AP for own Stigmas	Daeva Pass (sold per character)

Kina · running all 8 characters

Each server gives 4 slots, expandable to 8 (slots 5–8 must be unlocked). At Tier 2, 21 cubes per character:

	Free (no Membership)	Membership
Conquest runs per week	8 × 21 = 168	8 × ≈11 = ≈84
Full-Kina runs	84 of 168 (rest at 80% → 20%)	all ≈84
Kina per week (Tier 2)	≈33.6M	≈44.8M
Verdict	Stop at 4 characters	Worth it if you have the time

- Per-character rewards (Nightmare, Ascension, Battlefield, Corridors, Morphs, AP) are collected 8 times.
- Server-wide content (Duties, Daily Dungeon, Shugo keys) does not grow.
- Transcendence has its own limit of 55 runs – keep it for the main and strongest alts.

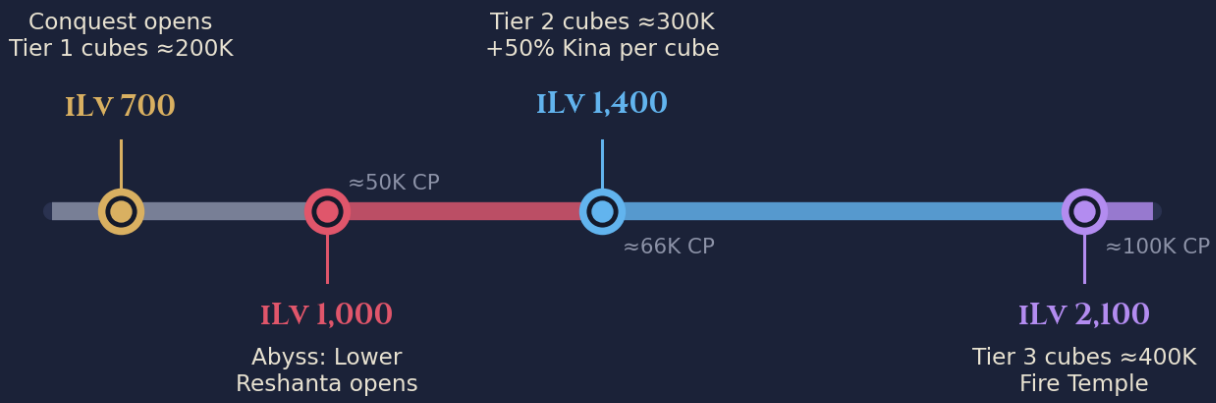

II

Item level

Your character total of gear, enhancement and Arcana

TARGET 2,100+

Item level unlocks content and drives Combat Power. Plan your upgrades around four milestones:

How to spend Kina for item level – in this order

Step	Upgrade	Why	Feeds
1	Replace your lowest item level slot	A big jump on the weakest slot beats polishing the best one.	iLv · CP
2	Enhance Epic/Unique gear to +10	Always succeeds up to +10 – only Kina and Enhance Stones.	iLv · CP
3	Fill every Arcana slot	Arcana counts toward item level.	iLv · CP
4	Push to the next milestone	1,000 opens the Abyss, 1,400 and 2,100 raise cube value.	iLv · CP · KINA · AP

- **Weakest slot first** – check your gear window and buy the cheapest big jump on the Market.
- **Do not over-enhance a slot you will replace soon.** Safe +10 is enough until the slot is final.
- **Time your milestones:** bank Odyle just before 1,400 so the first big session already pays Tier 2.
- **Alts:** 700 first (Conquest), then 1,000 (Abyss AP), then 1,400 (Tier 2).

Item level checklist

	Check every week
☐	Weakest slot identified – upgrade bought or planned with this week's Kina
☐	Every Epic/Unique piece at the safe +10
☐	All Arcana slots filled
☐	Odyle banked if the next milestone (1,000 / 1,400 / 2,100) is close
☐	Each alt checked against its next milestone (700 → 1,000 → 1,400)

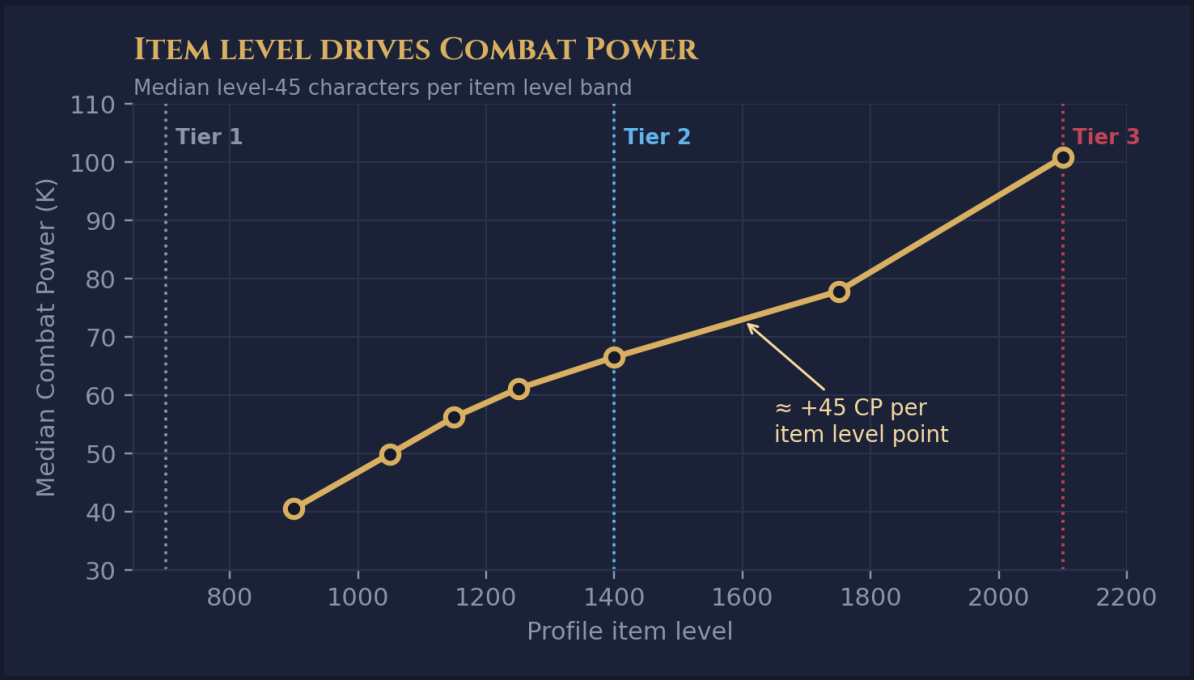

III

Combat Power

The game's strength score – what everyone looks at

TARGET 110K+

Combat Power follows item level almost one-to-one: **≈45 CP per item level point**. Class barely matters – all classes sit within ≈2,500 CP at the median.

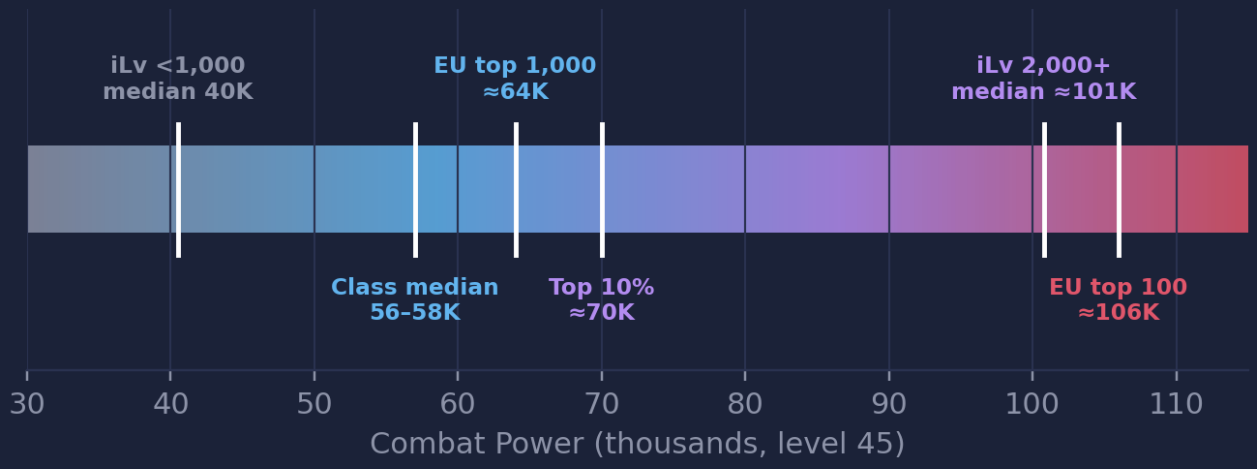

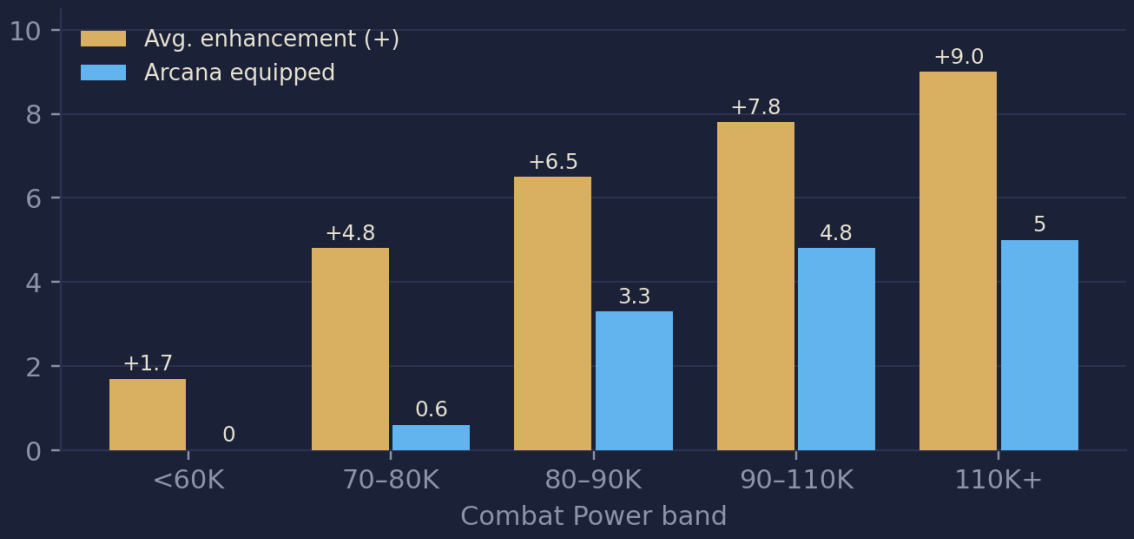

Step	Upgrade	Why / tip
1–3	Weakest slot · safe +10 · Arcana	The biggest item level gains (Pillar II).
4	Open Daevanion nodes	Top players have ≈2.5× more nodes. Plan the path first.
5	Collect titles and wings	Owned effects are permanent stats – even unequipped.
6	Amplified Enhancement (past +15)	Last. Only relevant above ≈90K CP.

Combat Power · where do you stand?

Where do you stand?

What strong characters have

Fastest path to power
Farm Kina with cubes → buy the weakest slot upgrade → safe +10 → Arcana → spend AP on Stigma Shards and Daevanion Crystals. Repeat. Never gamble high enhancement before your gear is complete.

Combat Power checklist

	Check every week
☐	Item level checklist done (Pillar II)
☐	All AP spent on Stigma Shards and Daevanion Crystals
☐	New Daevanion nodes opened along your planned path
☐	New titles and wings collected – owned effects count even unequipped
☐	Above ≈90K CP: Amplified Enhancement on gear already at +15

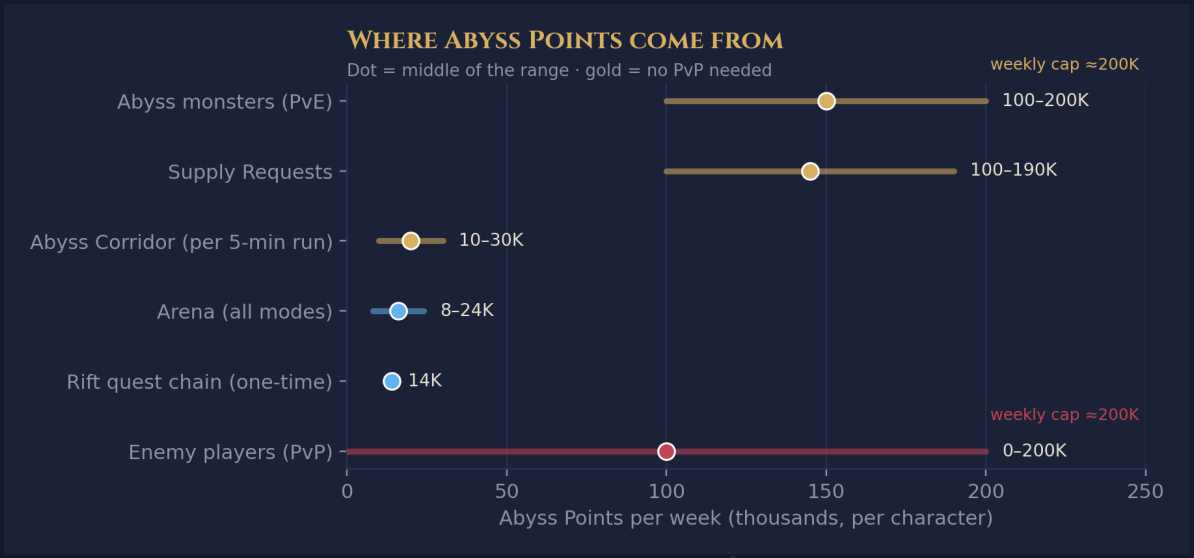

IV

Abyss Points

CEILING ≈580K / CHAR

The second currency – Stigmas, Daevanion and Potential

AP stays on the character that earns it – every character farms and spends its own. Two pools are capped (Abyss monsters and enemy players, ≈200K each per week); quest AP and Supply Requests mostly are not.

The AP priority order

Setup	Sources	AP / week / character
Casual	Duties + a few Supply Requests	≈30–60K
Guide, no PvP	Quest AP, Supply Requests, Corridor, Abyss mobs, Rift chain	≈110–380K
Guide + PvP	All of the above + Arena + enemy players	up to ≈580K

- **Corridor = burst AP:** 10–30K in 5 minutes – AoE, never stand still between pulls.
- **Abyss time is limited:** 7 h per layer per week. Treat it like Odyle – never unused at reset.
- **Alts need item level 1,000** for Lower Reshanta; below that only quests, Supply Requests and Arena.

Elyos vs Asmodian – where to farm

Same classes, mirrored gear and identical reward tables – power is equal. What changes is **where** you farm.

	ELYOS	ASMODIAN
Maps	Poeta → Verteron → Eltnen	Ishalgen → Altgard → Morheim
Hidden Cube groups (main map)	95 – far more	59
Monster spawns (main map)	≈10,400	≈12,400 – denser
Early Orichalcum	Ellun River Midstream	Basfelt Ruins
Early mount souls	Ellun River Midstream (Lv 18)	Purifying Forest (Lv 26–32)
Rift chain (7 × 2,000 AP)	Mino → into Altgard	Uru → into Verteron
Abyss bases	Latesran Western Root · Dukysas Fortress	Latesran Eastern Root · Krotan Fortress

Elyos route

1. **Verteron Hidden Cubes**
   loot while flying to Duties
2. **Ellun River Midstream**
   Orichalcum + gathering
3. **Mino → Rift into Altgard**
   7 quests × 2,000 AP
4. **Latesran Western Root**
   Lower Reshanta base

Asmodian route

1. **Altgard hunting grounds**
   densest mobs · field cap
2. **Basfelt Ruins**
   Orichalcum loop
3. **Uru → Rift into Verteron**
   7 quests × 2,000 AP
4. **Latesran Eastern Root**
   Lower Reshanta base

Elyos

- **Hunt Hidden Cubes** in Verteron – ≈60% more than Asmodians.
- **Ellun River Midstream**: Orichalcum, gathering and mount souls in one route.
- Busier servers: stable Market, more node competition – farm off-peak.

Asmodian

- **Altgard has the densest hunting grounds** – fills the ≈1M daily field cap faster.
- **Basfelt Ruins** for Orichalcum, **Purifying Forest** for mount souls.
- Fewer Hidden Cubes – spend that time on mobs and gathering.

Both factions
Do the 7-step Spacetime Rift chain (2,000 AP per step). A rift gives 1 hour in enemy territory. Lost every Artifact on a layer? Your faction gets its own Abyss Corridor – claim it.

Common mistakes

Mistake	Do this instead	Costs you
Odyle Energy sitting at cap	Spend it at least every 4 days on every character	KINA
Duty Missions on alts	Server-wide – main only	KINA · iLv
Alts on another server or faction	Same server + faction, or nothing is shared	KINA
5+ farming characters without Membership	Free: 4 per server. Member: up to 8	KINA
Daeva Pass for every alt	Per character – buy it for the main	KINA
Gambling +11 and higher early	Safe +10 on all gear, then Arcana	iLv · CP
Polishing your best slot	Upgrade the weakest slot first	iLv · CP
Grinding capped AP first	Quest AP + Supply Requests before Abyss mobs	AP
Leaving Abyss time unused	7 h per layer – plan it like Odyle	AP
Forgetting weekly counters	Tuesday clean-up – every week	KINA · iLv · AP
